

Welling News

At Relief Society on Wednesday Mrs. Nina Walker of San Francisco gave a demonstration of whole wheat bread making, everyone present was very impressed. Mrs. Walker made many such demonstrations while on her mission.

Milton Taylor left Tuesday morning for Provo where he will attend the BYU. LaDell Bullock, Robert Nelson, Keith Wilde and Henry Iwaasa also accompanied him to be students at the Y.

Mr. and Mrs. Bob Penrod and children of Pleasant Grove, Utah are home visiting with their parents and relatives.

James Gibb left Sunday afternoon for Edmonton where he will attend the university, studying pharmacy.

Mrs. Delecta Wilde entertained on Thursday afternoon in honor of Mrs. Nina Walker, with Mesdames Ann Wilde, and Nora Peterson of Raymond, Leah Stringham, Elsie Chipman, Katie Wilde, Letha Foote, Minnie Weinheim, Alda Bullock and Bernice Wilde, daughter of the hostess, present. A delicious lunch was served to conclude a very enjoyable visit.

An entertaining "I Remember" supper party was held at the home of Mr. and Mrs. Art Wilde in honor of their sister, Mrs. Libbe Heninger. The tales told by Mrs. Fanny Walker, Mrs. Elizabeth King and Mrs. Heninger brought shrieks of laughter from all assembled.

A group of friends gathered at the home of Mr. and Mrs. Alvin Bullock Sunday night to visit with Mrs. Nina Walker prior to her departure for San Francisco via Salt Lake City.

Mrs. Libbe Heninger left Saturday for Salt Lake where she spends the winter. She is writing a book and also spends time in genealogical research and temple work.

Mr. and Mrs. Les Palmer are enjoying a visit from their son "Bud" and his wife and baby daughter, from Provo. Bud will return to school later this year to work on his Masters degree in anthropology. Next year he will strive for his Doctors degree.

On Wednesday night nine B.Z.B.'s met at the home of Mrs. Lenore Dainard for an evening of quilting. They were happy to have with them a former member, Mrs. Emma Webster who is visiting from Lethbridge.

A lovely lunch was served by the hostess and enjoyed by all.

Mr. and Mrs. John Moors of Moose Jaw, Sask., spent a week visiting here with their daughter, Mrs. Keith Finch, and family. They also visited in Magrath where they were taken on a sight seeing tour by Mayor Tanner. They were taken to St. Mary's Dam, Cardston, Waterton and the Jensen Dam, which very favorably impressed them.

Mrs. Keith Finch and family are staying with Mr. and Mrs. Cecil Finch while Keith attends the University of Toronto for two months in the electrical technician, will be joined by his family when the course is completed, at which time they will reside in Winnipeg.

Mr. and Mrs. Cecil Finch have had as guests Cecil's sister and her husband, Mr. and Mrs. Deloss Williams of Ogden, Utah. They stayed two days and on their return toured through Washington and Oregon.

Mr. and Mrs. Arnold Garrett and Lavin motored to Coult's last Sunday to visit with Mr. and Mrs. Ernest Palmer and family.

CANCER SOCIETY SPONSORS SCHOOL CONTEST

The Alberta Division of the Canadian Cancer Society has announced that it will again sponsor a Cancer Scrapbook Contest in the Alberta schools.

As in the past, cash prizes totalling nearly \$1,000 have been donated by a group of Life Members of the Society who annually give funds for this purpose.

The Competition will require the students to depict, in scrapbook form, the "Cancer Problem" and "Cancer Control", using cuttings from newspapers, magazines and other printed material.

The prize list in each of the Society's branch areas comprising Calgary, Edmonton, Crownsnest Pass, Drumheller, Grande Prairie, Lethbridge, Medicine Hat, Peace River, Red Deer, and Vermillion, consisting of 1st, 2nd, 3rd, 4th prizes of \$10, \$5, \$3 and \$2 respectively in Grades V and VI, Grades VII and VIII, Grades IX and X and Grades XI and XII. Following the Branch awards Grand Prizes will be awarded to the best entries in the same classes in the entire Province. The closing dates for entries is March 15, 1956.

Posters giving details of the Competition have been supplied to all the schools in the Province. Teachers or pupils who do not receive posters and other information relative to the contest may secure them from the Lethbridge office of the Society at 114 McFarland Bldg.

A birthday party honoring Mona Palmer and Ruth Heninger was held at the home of Mr. and Mrs. Ellis Heninger recently. Among those present were Mrs. Gertrude Jensen of Lethbridge, Mrs. Mirra Peterson and Miss Pearl Heninger from Magrath, Mrs. Virginia Rolfsen, Mrs. Marva Nalded and Jan Heninger.

Mona and Ruth received lovely gifts and a happy time was enjoyed — chatting and partaking of the delicious lunch topped off by a large birthday cake.

Judy Rolfsen celebrated her ninth birthday recently when about twenty-four friends gathered at her home to enjoy games and fun galore. The afternoon was climaxed by a lovely lunch which included a delicious birthday cake.

Mr. and Mrs. Athol Cooper, Melba Woolley and Maxine Stevens motored to Rosemary to visit with Harold Ockey, father of Maxine and brother of Dick and Melba. Mr. Ockey had been ill in the hospital in Bassano, however, when they arrived at his home they were pleasantly surprised to learn that he had greatly improved and was attending Sunday School.

Mr. and Mrs. Jim Dainard are enjoying a visit from Jim's sister and her husband, Mr. and Mrs. R. J. Ulyat of Calgary who are on a combined business and pleasure trip. They are engaged in buying and selling trailers.

Valerie Jean Williams celebrated her birthday last week with fifteen little guests. Games were organized and led by her sister Lorraine and Helen Garrett, and all enjoyed the goodies that followed.

The regular meeting of the Book Lovers Score was held at the home of Mrs. Nora King this week. Mrs. Norma Wood entertained the ladies with her interesting pamphlets and pictures of her recent trip to the Orient. All enjoyed the delicious lunch served by the hostess.

Many parents attended the special meeting held on Sunday evening in the Second Ward Relief Society room. It was sponsored by the Primary Association in an effort to promote more reverence and better discipline in the Church.

Bishop Robert Salmon conducted the meeting and special talks were given by Mrs. Enid Dahl, Mrs. Hardy and Mrs. Mary Fairbanks. A short skit was enacted in which Mrs. La Von Hall, Mrs. Doris Court and her son Harris took part. Bishop Salmon offered some wise counsel after which light refreshments were served.

Phyllis and Eunice Piegrass are travelling to Salt Lake to enjoy a reunion of Phyllis' former missionary companions on September 30th. After the reunion they will travel to Vancouver where they will work as stenographers.

The Miladi's Club met for their regular meeting at the home of Mrs. Shirley King this week. Everyone present was delighted with the travelogue given by Mrs. T. Geo. Wood and the beautiful colored slides of Hawaii and Japan. A lovely lunch climaxed a very interesting evening.

Jerry Finch Wed In Claresholm

Friends of Jerry Finch will be interested to learn of his recent marriage to Betty Lambe of Claresholm where the wedding took place.

The bride was radiant in her traditional white gown and veil. Two sisters of the bride and Corrine Finch were lovely bridesmaids. Norma Jean Lambe and Dianne Finch were junior bridesmaids with little Valerie Vold as flower girl. All were gowned in blue.

The happy couple travelled to Niagara Falls for their honeymoon and on their return visited overnight with Mr. and Mrs. Cecil Finch.

They will make their home in Claresholm where Jerry is employed as an electrician with the RCAF.

Mrs. H. Douglas has returned home after visiting with her son Hugh and his family in Milk River. She has been suffering with her leg for some time.

The Genealogical Work Shop of the Second Ward held its weekly meeting on Wednesday night. Mrs. S. B. Smith conducted the lesson on Family Records and Statistics. Anyone interested in this work is welcome to attend. Mrs. Smith has a wide knowledge of the many phases of this work.

Canadian Players Coming To Raymond

The Taylor Stake MIA, following their tradition of sponsoring the Cultural Arts are bringing the Canadian Players to Raymond on Wednesday, February 1, 1956. The play will be "Macbeth", starring Douglas Campbell and Francis Hyland, supported by William Hutt. They are all stars of the Stratford Shakespearean Festival.

The tour encompasses seventeen states, the District of Columbia and six provinces, begins at Saratoga Springs and will be directed by Douglas Campbell, who is a graduate of the Old Vic Theatre in London and is now making his home in Canada.

For Francis Hyland, star of two seasons at Ontario's Shakespearean Festival, this tour marks a new point in his career. Sent to study in the United Kingdom by the citizens of her home-town, Regina, Sask., she was brought back to Canada in 1954 to play "Measure for Measure" opposite James Mason. The critics greeted her as one of Canada's top actresses — a position she has maintained. Those who were at Stratford this summer were enchanted with her performance as Portia in "The Merchant of Venice" and now with the Canadian Players will not only play the title role in Shaw's "St. Joan" but will also play Lady Macbeth.

William Rutt is a veteran of Canada's Stratford Festival having played there for three seasons. He was the winner of the Tyrone Guthrie Award scholarship, given annually by the Canadian Stratford Festival.

This tour has attracted a great deal of interest and enthusiastic comment and Douglas Campbell is confident that, with such an outstanding cast, the Players will give new and dramatic emphasis to Canadian Theatre.

If you have any doubt as to the treat in store for you ask Mona and Geraldine Palmer who were at Stratford this summer, then go and reserve your tickets. Other staunch supporters of bringing this treat to Raymond and District are Zettella Taylor, president of the YWMA, Eleanor Hudson, Drama director, Lyman Jacobs of the High School and Max Hamilton of the Raymond Recorder.

Lady Eaton is Honorary Patroness of the Canadian Players.

Fifteen boys accompanied Rodney Bridge to the matinee on Wednesday to celebrate his birthday. After the show the boys proceeded to his home to enjoy the hamburgers, cake and ice cream awaiting them.

ALBERTA WHEAT POOL TO AWARD BURSARIES

Each year the Alberta Wheat Pool awards six bursaries valued at \$75 each to assist farm young people to attend the schools of agriculture. One is given to a boy and a girl attending each of Alberta's three schools of agriculture.

These bursaries are named the Henry Wise Wood Memorial Bursaries in memory of Alberta's outstanding farm leader.

Winners must be members of the 4-H club sponsored by the Alberta Wheat Pool. These include the wheat, forage and garden clubs numbering 150 in all.

Young people who are interested in applying for one of these Bursaries should contact their local district home economist or district agriculturalist without delay as the school term begins on October 18 at all three schools.

The Alberta Wheat Pool, as a farmer organization, is intensely interested in the welfare of agriculture. It recognizes the need of developing farm leaders for the future. These bursaries are among a variety of scholarships and awards made by the Pool in the education and development of farm young people.

The shallow "melody pan" held by the drum face, marked off into notes by a young member of the Esao steel band, is actually the cut-off top of an oil drum, heated over a fire and then beaten into concave shape with a sledge hammer. The player beats on bongs.

On Sunday evening the members of the 3rd Ward enjoyed as guest speakers Mr. and Mrs. T. Geo. Wood who related some of their experiences and impressions of their recent extensive trip to the Orient.

Pat Strong played a beautiful piano selection and the song "My Task" was sung by Denise and Carole Dahl.

Mr. and Mrs. Gordon Stone were hosts to their Study Class Sunday evening which was also the celebration of Gordon's birthday.

J. Golden Snow was a very fortunate man recently when he was able to free his trouser leg from the gears of the combine. He was quite badly bruised and after a short stay in the hospital he was released and is now up and around again.

A surprise party that was really a surprise was held recently at the Carlyle Litchfield home when Eugene Dahl was the honored guest. He had been Mrs. Litchfield's assistant teacher in the Sunday School and had been released from that position. The members of the class took that way of honoring him.

Games and a pot luck supper was enjoyed by all.

Mr. and Mrs. W. W. Nalder spent the week-end in Calgary on a combination business and pleasure trip.

Mrs. Fanny Walker left recently for Salt Lake City where she will visit with her son Harris and his family. While there she will also attend her son, Robert's wedding to Barbara Benson on September 29th.

Mr. and Mrs. Burns Sabey and family of Ames, Iowa, were guests at the home of Mr. and Mrs. W. W. Nalder this week. Mrs. Nalder and Mrs. Sabey are sisters.

Mr. and Mrs. Max Hamilton were present at a family farewell party for his sister, Mrs. Mike Cook, in Magrath this week at the George Hamilton home. Mike and Hazel have moved to Orem, Utah.

Volney Phillips is in Omaha, Neb., attending a family reunion.

Private Jan A. Christian, son of Mr. and Mrs. N. J. Christian, will take part in Exercise Sage Brush with the 3rd Infantry Division this fall. Pvt. Christian, a switchboard operator with the 10th Artillery Battalion, is one of more than 135,000 men who will be on the six-week maneuver in Louisiana. The 3rd Division is presently stationed at Fort Benning, Georgia.

Pvt. Christian was graduated from the Raymond High School and entered the Army in January 1955.

Exercise Sage Brush is a joint Army Air Force test exercise which will be marked by the extensive use of simulated atomic weapons. The maneuver will include all types of air and ground operations.

Hospital Auxiliary Notes

The regular Hospital Auxiliary meeting was held on Wednesday afternoon in the local hospital with President Velva Cooper presiding. After the reports were made the secretary reported that Jubilee teaspoons had been given to two babies that were born during the Jubilee week. The babies were the daughter of Mr. and Mrs. Johannes Kleyne and the daughter of Mr. and Mrs. Kobayashai. At the conclusion of the business meeting the time was spent painting the new benches and doing hospital mending.

Recently Mr. and Mrs. Henry Piegrass journeyed to Kallisp where they visited with Henry's sister, Mrs. Leona Mitten and her family. Since the death of her husband Mrs. Mitten has moved from the farm to a lovely home right in the city and would like to see any of her friends from Raymond.

Mr. and Mrs. Lem Adams had as their guests for a few pleasant hours Mr. and Mrs. John Moors of Moose Jaw. They are the parents of Merrill Adams' wife, Margaret.

The passing of Arlo Palmer of Rosemary was deeply felt by his brothers, Les and Marion and his sister Mrs. Ike Orgill, and the other relative and friends in town.

Mr. Palmer lived in Raymond years ago.

The old songs that everybody knows and loves are sung by the Four Gentlemen on CBC Trans-Canada each Monday evening. The Gentlemen are, seated, Alan Sawyer, left, tenor and John Harcourt, bass; Jack Reid, top left, tenor, and Ernest Berry, baritone. The men sing in closely-woven harmony, a great variety of songs, including hymns, spirituals, chantys, gay nineties numbers, folk songs and marching songs.

Thanks

for the opportunity of serving you in my Raymond office for the past two years.

Serving one of Canada's richest irrigated mixed farming districts.

Do you like scrubbing floors — I don't! But it's a chore that I've made easier by sewing patch pockets to my jeans and inserting squares of half inch thick foam rubber.

Troubled by falling flowers in a low bowl arrangement. We use a suction type pin holder, which is heavy and won't rust, to hold the flowers correctly. Bill bought several from our local florist.

We painted our screen last week. Black on the inside and white on the outside, so that we can look out but no one will be able to look in!

Hope you'll join the Lovett family in our crusade to make our beaches safer and cleaner. One of the great hazards, as we've all learned from painful experience, is broken glass. Our slogan is 'Keep bottles off the beach!'

To help us do that sun-tan oil and new even insect repellent come in a small plastic pliable tube. They are easier to carry and, of course, there's never any danger from broken glass.

A film of soap or oil on glass will allow you to remove any paint that splatters on windows when you paint the frames. We learned the hard way.

We've put a cylinder made out of tar paper around our newly transplanted plants. This keeps away cut worms until the plants are established and eliminates a second planting or spreading poison bait.

Bill has installed a beverage rack under the kitchen sink to store soda, bleach, starch bottles etc. It's so much neater and easier for me to pick out the bottle I need.

No doubt your youngsters, like ours, will pick up their share of thorns and thistles in the summer time. A completely painless way of removing them from the skin, that sometimes works, is simply place a piece of adhesive tape over the offending, pull off quickly and, presto, it's removed.

Bill says: 'A wise woman puts a grain of sugar into everything she says to a man, takes a grain of salt with everything he says to her.'

CHALLENGE
Let us be challenged by the heights to which men like ourselves can rise. Let us be proud of the fact that we are human beings and, because we are human beings, we contain within ourselves resources of strength and power great enough to enable us to climb far and high. I know that there is much disillusionment, much discouragement, much temptation to take the easy way, the short cut, to do the expedient rather than the right. But we are men — and because we are men we can rise above the dull level of yielding. It is not what destiny does with us, but what we do with destiny that determines what we shall become. When a man is determined, what can stop him?

Cripple him and you have Sir Walter Scott.

Put him in a prison cell and you have a John Bunyan.

Bury him in the snows of Valley Forge and you have a George Washington.

Have him born in abject poverty and you have a Lincoln.

Load him with bitter racial prejudice and you have a Disraeli.

Afflict him with asthma until as a boy he lies choking in his father's arms and you have a Theodore Roosevelt.

Stab him with rheumatic pains until for years he cannot sleep without an opiate and you have a Steinmetz.

Put him in a grease pit of a locomotive roundhouse and you have a Walter P. Chrysler.

Make him a second fiddle in an obscure South American orchestra and you have a Toscanini.

Let life challenge you and be confident in your reply, for you are a man and the hardships of life are sent you not by an unkind destiny to crush you, but to challenge you. Our humanity is not our weakness, but our strength. Despite the artificiality of life around us, the two greatest words in the English language still are — 'I CAN!'

During 1954 Canada exported farm machinery to the value of \$76.8 million while imports were valued at \$143 million, reports the magazine Canadian Farm Implements. Exports were at almost the same level as in 1953 but imports declined from \$209 million the previous year. Included in the imports were 30,702 tractors and 4,367 combines. Exports included 3,673 tractors and 9,297 combines.

To make a dry shampoo grind a little coarser as fine as possible. Add a small quantity of pulverized orris root. Sprinkle this well over the scalp let it remain for a few minutes, then brush out thoroughly.

RESPONSIBILITY
Do not take the best from life and then refuse to bear — your responsibilities. Don't say that it's unfair. If you find you have to take a little extra load, let it be a spur to you, a challenge and a goal.

Show that you are man enough to bear the added strain. Square your shoulders for the weight. Don't shrink it or complain. Do it and be grateful for the chance to be of use. Do not shift it on another with any weak excuse.

Do the job that comes to hand, whoever you may be. Do not run away from your responsibility. Big or small your task may be, but give what it demands, doing what is needed with good grace and willing hands.

In the U. S. agricultural exports are running about 9% above last year, while farm imports are running about 10% behind last year. The major drop in imports has been coffee.

By H. J. Mather, B.Sc., Assistant Director, Line Elevators Farm Service, Winnipeg, Manitoba.

Sponsored by the following companies: Federal, Alberta Pacific, Pioneer, Canadian Consolidated, Paterson, McCabe, Parrish & Heimbocker, Inter - Ocean, Ellison Milling and Quaker Oats.

FALL CULTIVATION

With the soil dry throughout most of the Prairie Provinces and harvesting almost completed, an excellent opportunity presents itself to "take a crack" at perennial weeds.

The past few wet seasons have prevented efficient cultivation after harvest. The result is a tremendous increase in Canada Thistle, Sow Thistle and Couch Grass in Western Canada. Fall cultivation will not completely eradicate these weeds but will certainly greatly weaken them.

Canada thistle and sow thistle plants which grew in a grain crop during the summer have been prevented, through the competition of the crop, from storing any appreciable quantity of food in their roots. However, once the grain crop is harvested the thistles no longer have competition and are free to store up food supplies to be used next season. Now is the time to take a "whack" at them and prevent this build-up.

Choice of Implement. Any cultivation implement that will make a clean job of cultivation is satisfactory for the job. The one-way might be first choice, but a cultivator with sharp shovels is quite satisfactory. The important thing is to cut off all the thistles.

Couch Grass Different. Fall cultivation for couch grass control is quite different to cultivation for thistle control. Where a field is to be cropped next year the object this fall should be to drag as many couch grass roots as possible to the surface of the soil. The duckfoot cultivator or spring-tooth cultivator will do a good job. Two or three times over a badly infested field will bring a surprisingly large tonnage of couch grass roots to the surface. Two or three hours exposure to bright sunshine will kill them. Not all the couch grass roots will be killed, of course, but the competition to next year's grain crop will be reduced.

Yes, fall cultivation is a means of seriously weakening perennial weeds. Let's 'hit' them while we have a good chance.

In a recent statement in the House of Commons, Rt. Hon. C. D. Howe, said Canada was losing some of her small markets like Israel and Norway because of the U. S. farm surplus deals. Commercial markets are being disturbed by the program, however Howe warned Canada should not get into a giveaway war on wheat or any other, surpluses.

Old beef and lamb bones are useful to Mrs. Anne Coles of San Francisco. She boils, cleans, dries and bleaches them, and then carves them into busts, statuettes and other ornaments.

Men show their character in nothing more clearly than by what they think laughable. —Goethe.

Eight Ways to Make Life Harder

1. Worrying about a thing that cannot be changed.
2. Insisting a thing is impossible because we have failed it.
3. Refusing to set aside trivial preferences in order that important things may be done.
4. Attempting to compel others to believe and live as we do.
5. The failure to establish the habit of saving money.
6. The delusion that individual advancement is made at others' expense.
7. Holding resentments and planning retaliation.
8. Living a day from eyes-open to closed without a single prayer.

As business life becomes increasingly complicated, there is a corresponding increase in confusion for many of the people engaged in it. In Grand Junction, Colorado, some of the citizens may be expected to find life even more confusing in the future.

A six-storey office building of glass and aluminum sandwich panels is in the process of construction there as the administrative centre of an oil-uranium organization. The unusual aspect of the building is that it is mounted on a pivot below the front entrance and can revolve a total of 90 degrees. Even more surprising, the building will float, most of its weight resting on a 333,000 gallon reservoir. The building, designed by Jared Morse will rotate in summer so as to present its heat-reflecting aluminum roof to the sun's rays, while in the winter it will turn to admit the most sunshine possible.

An interesting subject for speculation is what happens if they come streaming out at closing time and find themselves pointing the wrong way.

Sault Ste. Marie Freight Traffic
A record 128,481,000 tons of freight moved through the Sault Ste. Marie Canal in 1953.

Money across the miles

A chartered bank makes it a simple matter for you to send money almost anywhere, inside or outside Canada.

You may want to get money to a certain city as a gift on somebody's birthday; or to settle a business account; or to set up a fund which can be drawn upon by a company salesman, branch office or supplier.

It works the other way, too. If you are far from home and short of cash, you can advise your "home" branch to telegraph your money to a point where you can pick it up. Many situations and needs can arise — and a chartered bank has many ways of taking care of them, including the sale of travellers cheques.

This service is one of the many advantages you enjoy as a customer of a chartered bank. Your local branch is an all-round banking service-centre that can be helpful to you in many ways.

Only a chartered bank offers a full range of banking services, including:

SAVINGS ACCOUNTS

Keep your money safe; pay you steady interest; encourage the habit of thrift.

COMMERCIAL LOANS

For business or industrial firms, large and small; producers, processors, retailers—every type of enterprise.

SAFETY DEPOSIT BOXES

Keep your important papers and other valuables safe, yet readily accessible.

TRAVELLERS CHEQUES

Protect you against theft or loss of cash. They are readily negotiable anywhere.

THE CHARTERED BANKS SERVING YOUR COMMUNITY

MAKE YOUR COURTESY CODE OF THE ROAD

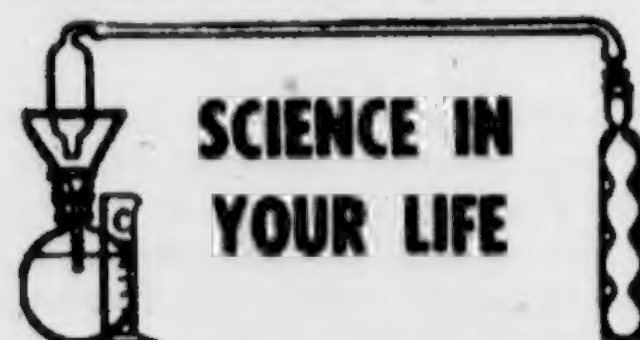

"Anything else, sir?" she asked as she put the order on the table.
"Yes, now sit down and nag me, I'm homesick."

The national debt of the Canadian government (the total direct interest-bearing debt) amounts to about \$14.5 billion. While down from the 1946 figure of \$16.5 billion it is over four times the size of the 1938 debt of \$3.4 billion. The debt amounts to about \$940. for every man, woman and child in this country.

Kitchen tongs have many uses - for removing baked potatoes from the oven, turning chops or steaks, and lifting ice cubes into glasses when drinks are to be chilled.

You can pot or transplant prickly cactus without getting one of those little slivers in your hands if you use serving tongs to lift the cactus to garden or pot. Then adjust and replace the soil with a common table fork.

Fall sown wheat in Europe has come through the past winter in generally good condition in most areas, according to the International Federation of Agriculture Producers. Winter wheat acreage in Europe normally amounts to about 90% of the total.

SCIENCE IN YOUR LIFE

Premature Babies
One of medicine's most difficult problems is premature birth. Infants who arrive early are not actually ready to begin life in our world. They are too small, and their nervous systems are still undeveloped. Infectious diseases find them easy prey. Their feeding is difficult.

In spite of all this, doctors now have new tools with which to fight for a baby's life when standard treatment fails. When a child arrives prematurely, the doctor usually puts it into an incubator, a sealed crib with special heaters, a supply of pure oxygen and filters designed to keep out dangerous germs.

Protecting the infant from infection is the big problem. In spite of air filters, germs can still attack the child. And recent investigations show that the best way to combat the infectious invaders is with the antibiotic drugs that are effective against many different germs.

Malnutrition of the mother is being studied as a possible cause of premature birth. Preliminary studies indicate that there is danger of premature birth unless the expectant mother is getting enough vitamin E, the so-called fertility vitamin in wheat germ oil, and vitamin K, which promotes healthy blood circulation.

The laboratories have developed nutritional supplements like Obion to provide in capsule form the vitamins and minerals needed by a pregnant woman.

Much more will have to be learned by science before premature births actually can be prevented. However, their number is gradually decreasing. And when a baby does arrive before its time, today's chances of survival are much greater than they were even five years ago.

Pulp and paper has been largely responsible for making Canada the second largest hydro-electric power producer in the world. The mills use a quarter of the total consumption of electricity in Canada, and one-third of all the power used by all industry.

A woman appealed to New York City officials to rid the air there of sulphuric acid fumes, saying such fumes dissolve nylon clothing right off the wearer. And with today's women being almost completely clothed in nylon, that's the naked truth.

The eight locks of the Welland Canal's 28 mile length lift or lower ships a total of 325 feet as they ply between Port Weller and Port Colborne.

Today is yesterday's pupil.

The friendliness of aluminum to food, its corrosion-resistance and ease of fabrication have frequently enabled men to fashion for themselves sets of false teeth in moments of crisis. In most instances, such dentures have been made from aluminum cooking utensils. It remained for David Cox of West Bromwich, England, to add a new feature to this form of cottage industry.

Mr. Cox, now 81, made himself a set of teeth 28 years ago from the aluminum rim of an old bicycle wheel. The National Health Plan in England made it unnecessary for him to depend on these home-made dentures but he still keeps them handy for use in an emergency.

The Women's Institute, now a world wide organization, was founded at Stony Creek, Ontario, by Mrs. Adelaide Hoodless in 1897.

Homemakers who have won the battle of bath-tub rings and streaky dishes know the value of detergents. But these man-made cleaning agents have other uses besides speeding up household chores.

In industry, detergents have a hand in the making of all sorts of things. They go into lubricating oils, printing inks and embalming fluids and serve just as ably as they do in the family wash. Perhaps you're used to washing your hair with detergent-containing shampoos, but did not know that the dress you wear owes something to detergents besides its clean, fresh look?

It was, in fact, the textile industry that first developed detergents many years ago. Up to that time soap had been used to wash raw fibres, but its chemical disadvantages prompted scientists to look for a better cleaning agent. And after many years of research detergents were born.

Despite the great discovery of the textile industry, it was a long time before 'detergents' became a household word. The natural oils that produced them were much too costly for the average home-maker. During the 1930's the booming petroleum industry partly solved this problem by providing ingredients for better and cheaper detergents.

However, it wasn't till World War Two that the housewife was affected by all this research. Then, the critical shortage of soap was the mother of invention. To stretch the supply, science developed what is called extenders. To stretch the power of detergents and at the same time lowered the cost so that every housewife could afford them.

Back in 1940 only a few thousand pounds of detergents were used in Canada. By 1946, they had taken on a variety of forms and 20 million pounds of flakes, pastes and liquids found their way into dishpans, washing machines and industry. Last year with the added attraction of delicate pastel hues, Canadians bought 130 million pounds of man-made detergents.

Dr. and Mrs. Joseph T. Smith of Honolulu, Hawaii, are proud parents of their sixth child, a daughter born on September 18. She is Sidney's thirty-fourth grandchild.

The Soo Canal between Lake Superior and Lake Huron is sometimes called the 'billion dollar mile'.

Gobbling a sandwich and gulping down a cup of coffee, then getting back on the job, is no program for the busy person. Such a procedure means that the lack of a good balanced meal may lead to a form of malnutrition, and a breakdown of resistance to fatigue, colds and other ills going around. The sensible meal is one that supplies the necessary proteins, minerals and vitamins, topped off with a walk in the fresh air, even if it means only a block-long walk, to aid digestion and to ward off that tired feeling in the afternoon.

The larger the island of knowledge the longer the shoreline of wonder.
Ralph W. Sockman
